# HERO LIMITED EDITION

The Hero LTD ski is the perfect summary of racing intensity and the complex emotions that compose it. Each color represents a reflection to an emotion experienced during the race.

## RED PASSION

Race passion. A deep driving passion that fully bursts in the thrill of the race, putting it all on the line, pushing everything for the win.

## BLUE SERENITY

Finding the groove but being on the limit at the same time, but somehow everything seems to be in flow. There is a certain race serenity of winning runs, perfect control within the races' chaos.

## YELLOW HAPPINESS

Happiness is initiated at the moment of reaching across the finish line. A sudden burst of ultimate happiness when the timing board reveals a podium, lifting of the Cup or Medal to come.

## GREEN LUCK

As in all great things, and especially in sports, you need a little bit of luck.

Between the next Olympics in Beijing 2022 and the World Ski Championships in Courchevel/ Méribel 2023, every podium achieved by one of our HERO's on the World Cup, a lottery for "Giveaway products", will be held for all registered participants and owners of the HERO Limited Edition's skis... Simply, buy your Limited skis in one of our partner's skis shop and scan the QR code, registered and enter the special Rossignol HERO Limited Edition platform on our website.

## 1 DUAL CORE TECHNOLOGY

DUAL CORE involves injecting materials with different hardness levels or of different types into the same mould. The result is a sandwich construction with an ultra-thin layer of hard materials on the outside encapsulating the softer materials inside. This makes it possible to create zones of different hardness on the boot, without adding layers of plastic.

This technology can be used to accurately fine-tune the progressive flex, rear support and rebound.

## DUAL CORE RACE

The entire HERO WORLD CUP and HERO range features the DUAL CORE technology. The process involves three injection points on the shell and two on the cuff. This technology can be used to accurately fine-tune the progressive flex, rear support and rebound. It also allows for highly effective lateral power transfer.

## 2 RACE PRE-SHAPED LINER

The lower part of these liners is pre-shaped around the ankle bone to ensure a snug fit with the shell's internal last. The shape can be seen on the outside of the liner.
